SHRINERS IN THEIR HIGH JINKS IN SALT LAKE

"The seance is scheduled to begin promptly at 7:30 p. m. Friday, October 31. The illustrious director having ascertained from the greatest soothsayer and neeromancer of Mars, it is to be the most propitious and auspicious night for high ghostly jinks.

The foregoing paragraph forms part of a unique invitation and program issued by El Kalah temple of the Shriners for their big ceremonial and initiation which will take place tonight at least 500 Shriners, including members from all over the state, will attend. This afternoon a business session will be held at 3:30 o'clock; the ceremonial will come at 7 o'clock; the "wake" or banquet will be held at 11 o'clock and the merry-makers will reach home, according to the schedule, "some time before Christmas."

As tonight is Halloween, the Shriners promise to have ghosts, spooks, shades, ghouls, harpies, ogres, vampires, yancos and basalsiks in abundance. Here are some of the instructions which have been printed for the

benefit of those who will walk the burning sands to the Oasis of Salt Lake:

"Wear your asbestos suits, rubber boots and celluloid collars. The last will stand up all evening if you don't. The last advice we have to give you is, forever and a day, no matter what you think—though we don't concede you any right to think—hang onto the rope."

A partial list of those who will be initiated follows:

R. G. Campbell, A. J. Bosworth, J. R. Collins, Jacob Dahl, C. D. Foltz, Hugh S. Jamison, William L. McLeod, Warren Paul, Pearl M. Randall, Fred W. Retting, L. C. Ritter, Harry E. Schell, E. S. Springer, G. E. Traul, John Westfall, William E. White and C. C. Shepherds, all of Salt Lake; Albert and Thomas Lane of Twentymile; William J. Dunn, Richfield; Benjamin Oppman, O. B. Gilson and C. L. Smith of Ogden; Charles Henry Sommers, Brigham City; Albin F. Palm, Provo.

KINGDOM GOULD DUE IN SALT LAKE TODAY

Salt Lake, Oct. 31.—Kingdom Gould, director of the Western Pacific, Denver & Rio Grande and Missouri Pacific, is due in Salt Lake late this afternoon, unless a change is made in the schedule now in force. Yesterday he was at Price and finished inspection of the coal mines in the Black Hawk district and on the branch which runs south from Price.

Local offices of the company have not been advised as to motives of his visit to the coal fields, but it is thought it is in connection with the \$70,000,000 loan secured some time ago by the Western Pacific in Europe.

PAID OFFICERS USURP CONTROL

New York, Oct. 30.—Charges that the board of directors of the Equitable Life Assurance society does not direct the affairs of that \$436,000,000 institution are made by the state insurance department.

It also asserts that the record of the board of directors gave only meagre accounts and that a committee of paid officials of the society has to a large extent usurped the functions of the board.

The charges are contained in a report of an examination of the financial condition of the society made by Chief Examiner Nelson B. Hadley. The report has just been made public by the state insurance department.

"We have examined the records of the board of directors and of the various committees of the board," writes Mr. Hadley, "and found that these records give very meagre accounts of the business transactions of the society."

"In some cases verbal reports were made, the purport of which could not be ascertained from the records. It is apparent that if the records do not give a complete account of the transactions of the board of directors and the various committees of the board, the members of the board of directors cannot be fully informed as to the transactions of the society and its methods of doing business."

Referring to the usurpation of the power of the board by paid officers, the report cites the rules and regulations committee.

"This committee," Mr. Hadley says, "is an advisory committee of the officers and heads of departments of the society. Apparently no member of the board of directors is on this committee. Its authority appears never to have been considered by the board of directors. Its transactions are never reported to the board of directors or to any committee of the board."

"This in our opinion is a matter that should be remedied as this body is one of the most, if not the most important one of the society, regulating almost wholly the conduct of the society with the policy holders."

The board also comes in for criticism for the latitude that is allowed the controller in connection with the employment and discharge of an army of employees who receive less than \$5000 a year.

Under the present system of this society, responsibility for its actions or the proper administration cannot be brought home to the board of directors as it should be.

Mr. Hadley also notes that the Equitable has made some loans on real estate that are the reverse of conservative and that Frank Jordan, son of the former controller, Thomas D. Jordan, still has a monopoly of placing fire insurance on properties on which the Equitable makes mortgage loans.

This latter practice came in for severe condemnation during the insurance investigation.

The report says: "It was noted that in many cases, by using the society's appraised value of property as a basis for mortgages, the amounts of the loans were in excess of the legal limitations."

WOMAN MAKES THREAT TO KILL

Mrs. Ida Von Clausen Sends a Letter to Attorney—Is Committed to Tombs.

New York, Oct. 30.—Mrs. Ida Von Clausen, whose threats against Colonel Roosevelt caused her to be committed to Bloomingdale insane asylum over a year ago, was arrested tonight charged with threatening to kill Charles Strauss, an attorney and president of the water supply board. Mrs. Von Clausen was committed to the Tombs.

Charles Strauss had heard of her coming. He was advised by District Attorney Whitman to cause her arrest because of a letter which she had sent to him from Rome. The letter reads as follows:

"To say that I am angry—furious—is putting it mildly. My marriage with a man worth \$50,000,000 is broken off because, his lawyers say, I am not legally divorced. This is all up to your door."

"Now I warn you, Mr. Strauss, to take steps to replace the damage you have done. I tell you with malice and premeditation that unless you do, I will come to New York and disgrace you publicly first, then shoot you like the dog you are."

"Shoot to kill. Do you understand that English?"

JACKSON AND COHEN GO TEN HOT ROUNDS

Boise, Ida., Oct. 30.—"Young" Peter Jackson of Salt Lake and Ike Cohen of Boise fought to a draw here in a terrific ten-round fight tonight. Cohen was floored with a right swing to the head in the tenth round and took the count of four and Jackson had him against the ropes, swinging in left and right, but lacked the steam to deliver a knockout. Cohen's showing earlier in the match saved him from defeat.

Referee Goddard of Ontario announced, when the gong sounded, that although Jackson had the better of the fight he would give Cohen a draw with him because of Jackson's foul fighting. Outside of the tenth round Cohen took all but the third and eighth and badly battered Jackson. Blood was flowing freely during the fight. Cohen fainted immediately after the bell sounded in the tenth.

MINERS FROM UTAH VICTIMS AT DAWSON

Price, Utah, Oct. 30.—James Lind, formerly of this county, was among the victims of the mine horror at Dawson, N. M., and a telegram was received by the local undertaker this morning from the St. George Canon Coal company, stating that the body had been shipped and would arrive here Saturday morning. The deceased was a Mason and the Masonic lodge here will have charge of the funeral.

There were about ten former residents of this county, mostly from Castle Gate, who perished in the Dawson catastrophe, but the body of Lind was one of the first recovered, was the only one that could be positively identified. William Littlejohn, formerly a mine foreman at Sunnyside, one of the few who escaped, with his wife, is accompanying the body of Lindsey to this city.

CAR SHORTAGE GRAVE.

Idaho Falls, Ida., Oct. 30.—There was not a single car available for loading potatoes this morning in Idaho Falls, notwithstanding the clamorings of the dealers and farmers, who have reached a stage where they are skeptical of the repeated promises of the railroad people here. The road takes the position that it is unable to build equipment fast enough to meet the yearly demand, which is ever increasing.

Most of the farmers have storage cellars and the warehouses can manage a certain amount in that line, but the immense yield this year has created an overflow which cannot possibly be handled by either of both resources. In addition, the farmers naturally want to get their products marketed to obtain the cash therefore, and if the commission houses cannot find room to handle them, the buyers as a matter of course "stand off" the ranchmen, who in turn are obliged in many cases to delay paying their bills.

It is not improbable that the assistance of public utilities commission may be called in to try and find a remedy if possible.

NEW SCHOOL BUILDINGS.

Brigham City, Oct. 30.—At the meeting of the board of education yesterday, Architect Wood of Ogden, appeared and stated that the school house at Snowville was completed and Architect Madsen also of Ogden, appeared and asked the board to install well in the new Penrose school house, which has just been completed under the supervision of his firm. Architect Wells of this city was instructed to oversee the finishing of the new school building at Thatcher.

Upon the recommendation of Superintendent D. C. Jensen the board of education decided to install an experimental course in domestic science in the grade schools of the county. If the experiment proves a success the course will be introduced into all the schools of the county.

FIND MAN LONG DEAD.

Price, Oct. 30.—The decomposed body of a man was found about five miles west of Price this afternoon about 300 yards west of the Southern Utah railway tracks. There was a bullet hole in the skull, which was badly crushed, showing evidence of foul play. There were no papers of any kind on the body, the only possible marks of identification being the tag of a Chicago tailor on the clothing.

The man had been dead several months and it is thought that the body may be that of Robert Jameson, a civil engineer, who disappeared mysteriously from Helper about three months ago and has never been heard of since.

APPOINTMENT HELD UP AT WASHINGTON

Washington, Oct. 30.—At the department of justice today it was stated that no conclusion had been reached in regard to Utah and Idaho appointments for the positions of

NOVEMBER FIRST

United States marshal and district attorney.

Before making appointments the department is determined to get full and accurate information concerning the political situation in both states. After a week spent in conference with Secretary Bryan, Attorney General McReynolds, Secretary Lane, Postmaster General Burleson and other Democratic leaders, National Committeeman Elder of Idaho left for home today, satisfied that long-delayed federal appointments in Idaho would soon be made, and he furthermore ventured the prediction that the man appointed would be Elder-Nugent men.

Ex-Senator Perky, representing the opposing faction in Idaho Democracy, is expected to reach Washington within a few days to oppose recommendations made by Elder and if possible to bring about a division of the spoils between the two factions. Word has reached Washington that Perky will undertake to prevent the confirmation of any appointees recommended by Elder, unless some sort of compromise is brought about.

Elder left Washington satisfied that Judge Sinclair of Coeur d'Alene would be nominated for district attorney to succeed Lingerfelter, and he also was confident that State Chairman Gray will not be appointed marshal. Elder submitted the names of four Democrats, any of whom would be satisfactory to his faction for appointment as marshal. Captain Waters of Weiser, P. H. Marrison and a Democrat named Reed being on his slate. The name of the fourth is not known. Perky is expected to demand Gray's appointment as marshal, but Elder said, before leaving, that Gray cannot be appointed.

STABBED IN TRYING TO STOP QUARREL

Pocatello, Ida., Oct. 30.—Because he interfered in an altercation between O. W. McQuay and his wife here last night, Lynn Beaton is in the hospital, seriously if not fatally stabbed.

After her husband had stabbed Beaton, Mrs. McQuay secured a bottle of poison and swallowed it. She was rushed to the hospital and the stomach pump applied with seemingly good results. McQuay is in the city jail with a charge of attempting murder opposite his name.

The quarrel between McQuay and his wife is alleged to have been caused by the remonstrance of McQuay to his wife's alleged attentions to a young man named Ed Hanson. Beaton objected to the method used by McQuay with his wife and intervened in the quarrel, being stabbed for his trouble. He may recover if complications do not set in.

RUNAWAY GIRL IS RETURNED TO HOME

Salt Lake, Oct. 31.—Fern Bills, 15 years of age, daughter of Frank R. Bills of 1014 Washington avenue, who left home Wednesday afternoon after writing a note to her parents telling them that she intended to leave the city and never to come home again, was found on the street yesterday afternoon by Patrolman J. W. McKenna and returned to her home.

The girl explained that she had spent the night at the home of a girl friend. The father called at police headquarters yesterday morning much worried over her disappearance and gave a careful description of her, which was given out to the patrolmen, with the result that she was recognized by Patrolman McKenna. The father explained that his daughter had chafed under the refusal of her parents to allow her to try for work on the stage.

CHILD JOY RIDERS APPROPRIATE RIG

Salt Lake, Oct. 31.—The age limit for joyriders in Salt Lake was lowered yesterday by the performance of Masters James Patric of 769 East Third South street, and Alvin Nelson, of 255 Tenth East street.

The boys are both under 7 years, but the less adventurous, Joseph A. Carlisle of Fourteenth South and Sixth West streets left his horse and buggy tied in front of the city and county building yesterday afternoon. When he came out of the building two hours later the outfit was gone. Going up the street, however, was a rig that looked much like his own. Two small boys were driving it. Mr. Carlisle overtook them, and, assuming the reins, drove to police headquarters.

The boys were turned over to Juvenile Officer Gaudreault Brown, who took them to their homes. The parents were not aware that the boys had been so far from home and were expecting them to come in the house any time. The boys told of driving many miles about the city before returning past the city and county grounds at just the right moment to be caught by the owner of the rig.

CHARGES HUSBAND USED FRAUD IN SECURING HER SIGNATURE

Salt Lake, Oct. 31.—Charges that her husband deceived her into signing a deed to their community property for the purpose of defrauding her out of her interest are made in a suit filed yesterday in district court by Agnes Richards against Alva K. Richards and his father Chauncey C. Richards. Plaintiff asks an order for separate maintenance and that the deed be annulled and her rights in the property be restored.

It is claimed by plaintiff that Richards represented to her that, if she would sign the deed, he would turn it over to his father, who proposed to pay off a mortgage of \$1500 and simply hold the deed as security until the incumbrance was removed from the property.

Mrs. Richards says that instead of sending the deed to the father her husband recorded it in his own name and she knew nothing of the alleged deception and fraud until later. Separate maintenance and alimony
